

DenokInn presents *SI Park*:

***The first Social Innovation Park in Europe***

Social Innovation leaders have a long tradition of collaborative projects but a business park fully dedicated to this field has never been experienced in Europe. The Social Innovation Park (SI Park) is hosted in the Greater Bilbao area of Northern Spain. Consolidated social enterprises and emerging innovation projects aiming to create the new “Social Silicon Valley”. All of them benefits from the new resources incorporated in this initiative: the Social Innovation Laboratory (Innovalab), MIT rapid prototyping lab (Basque Fab Lab), the Social Innovation Academy and the Social Enterprise Generator (LKRTEAM).

## 1.- INNOVALAB: Social Innovation Laboratory

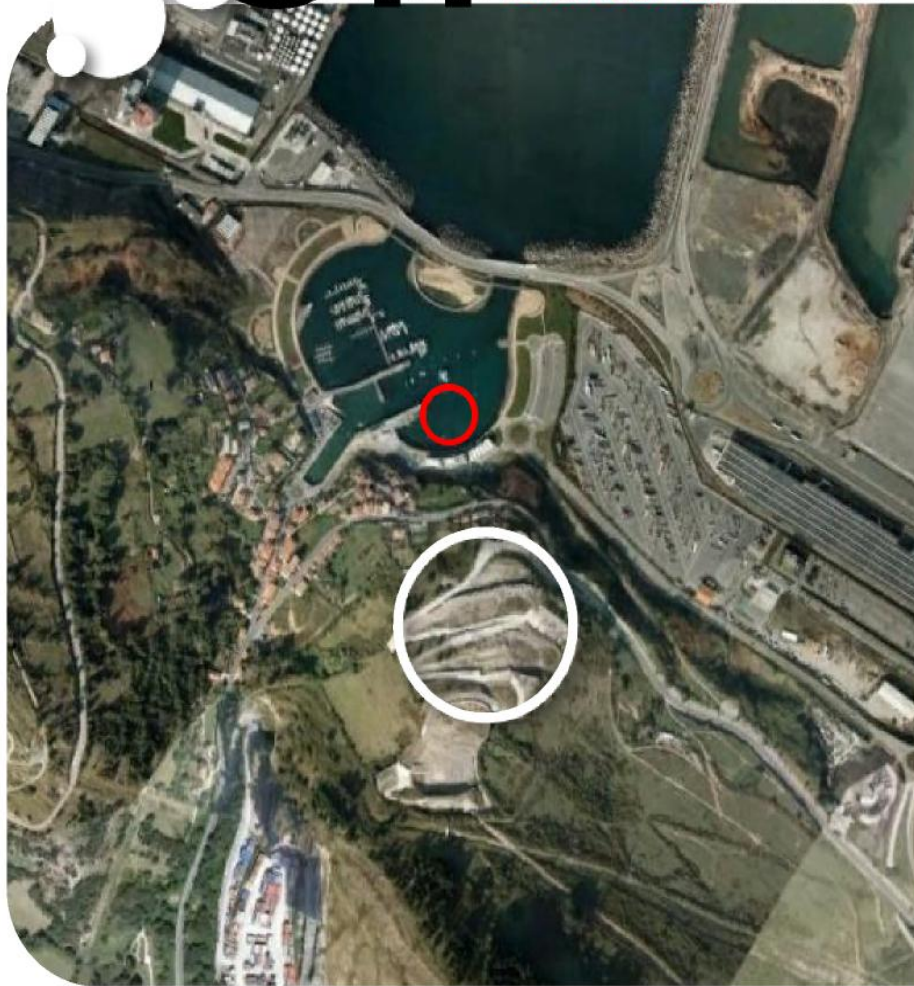

SI Park host within the last hand made tune boat in the Basque region (see picture) a laboratory for identifying emerging social tendencies (Innovalab) applying participatory democracy methodologies. Innovalab evaluates current social services provided by the public administration to design and develop innovative testbeds. SI Park operates under an open innovation framework, with membership annually determining potential areas of laboratory research. As a priority, Innovalab's research is royalty-free to all institutions present in Bilbao and it is associated to the leading international networks of social innovation laboratories.

## 2.-Social Innovation Academy

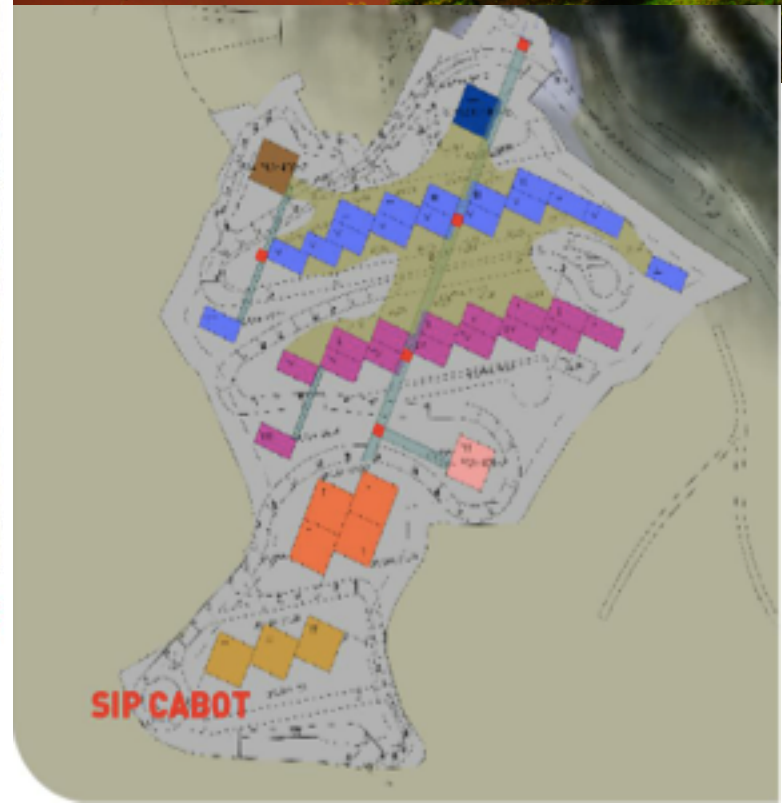

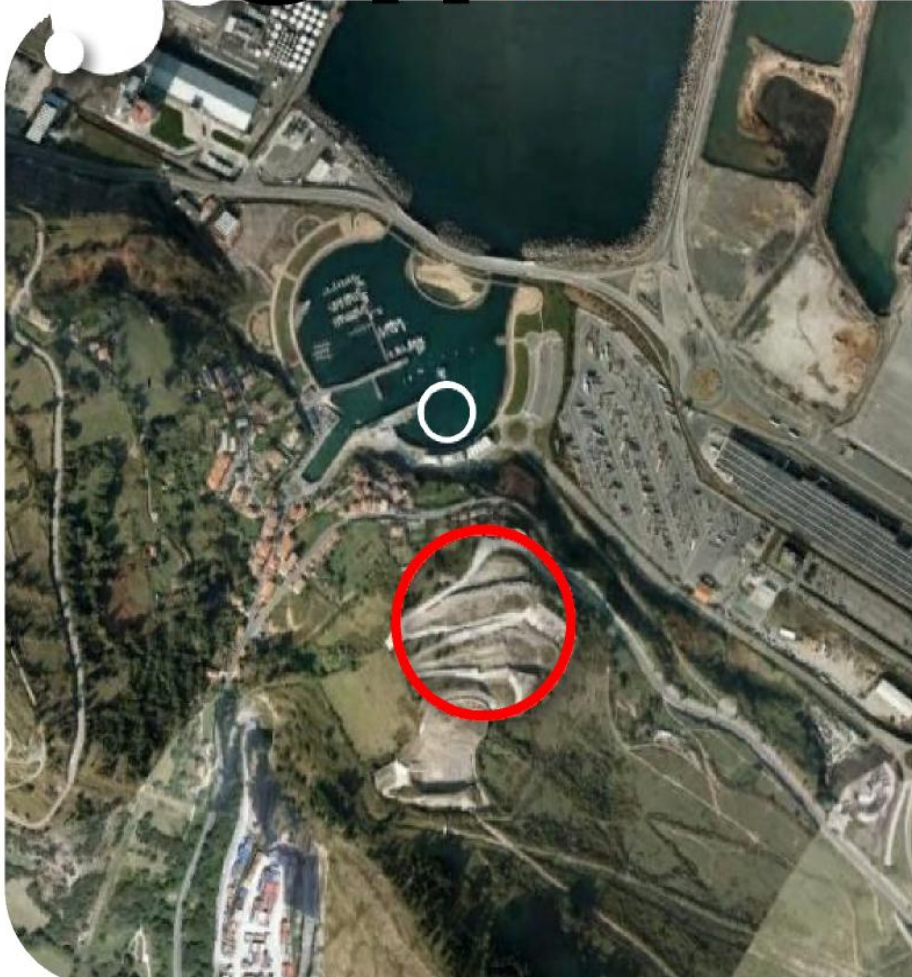

SI Park provides on-site training to bring fresh ideas to services provided by third sector institutions, organizations and enterprises. The Social Innovation Academy will offer a regularly-scheduled master and degree programs in 2013-14.

Intensive training for civil servants and project-based education are offered in SI Park in partnership with the Social Innovation Global Academy project. (Young Foundation and Rockefeller Foundation)

## **LKRTEAM, Social Enterprise Generator**

Collaborating entities within the SI Park offers the opportunity to incubate new social enterprises and emerging tendencies identified by the G-lab will encourage SI Park membership to launch new projects. The new innovation entrepreneurs are trained, mentored, and evaluated by SI Park staff, incorporating the know-how present in a privileged social environment.

The Park also hosts a pilot project led by Denokinn to generate social and cooperative enterprises under an innovative approach. Local institutions allow social income receptors to test new entrepreneurial initiatives without losing their benefits. The LKRTEAM allows a large number of small and medium-sized enterprises to be located in the park, integrating related experiences successfully tested in Sweden and France.
